Re: Information about VET reports; Dates for Term 3

Dear Parents

VET reports for Hospitality or Construction will be sent out on Tuesday 21 July. Please note that this is different to the dates of Year 9 and 10 reports, and will be received after those reports. There will be two VET reports sent each year.

The reports are a different format to that for other subjects because of the industry requirements for VET courses. Therefore, all the Units of Competency (and their code numbers) required for the completion of the course are listed on the report.

The report will indicate the Progress of the course – whether the subject is: Not Commenced; Commenced; or Completed.

The course is competency-based, rather than graded; therefore a student has completed the unit of work when they are ‘Competent’ in the assessments for that unit. The student is given at least 3 attempts in the assessments until they achieve competency.

This is reported as the Level of Competence for the student, and appears as: Not Yet Assessed; Assessment Continuing; Not Yet Competent; or Competent.

The report will also contain a section for indicating the student’s classroom attitude and behaviour.

Dates for Term 3
