ASSESSMENT TASK: CHANGE OF DATE – iSTEM Task 3

Dear Parents,

I wanted to inform you that we have moved the due date of the Stage 5 iSTEM Assessment Task 3, the 'Mars Rover Project'. On our original Assessment Schedule, this task was due on Thursday 30th August, 2018 (Week 5). The due date will now be **Thursday 18th September 2018 (Week 8)**.

This change aligns the iSTEM assessment schedule with the other subjects on the same 'line', and will provide the students with more time to master the new technical knowledge and skills required to complete this task to the required level. The new date is included in the assessment documents being provided to the students, and the learning tasks and project work in class will be scheduled in light of the new due date.

Please contact me if you have any questions or concerns regarding this assessment task.

Yours in Christ,

Les Follent
iSTEM Teacher
